## That's No Way To Tell A Lie

## **James Dean Bradfield**

I hear you've got some love to give away But maybe it never belonged to you So how come you know my name?

So it's closing time again For the lost souls on a pilgrimage I think I've seen this somewhere before

That's no way to tell a lie That's no way to tell a lie

I hear you've got something to say But first you need some people to say it to Just before your rise from the dead

So we crawl from the water's edge Returning to dip our heads again And back to where it all began

That's no way to tell a lie That's no way to tell a lie

Sha la la la

That's no way to tell a lie That's no way to tell a lie That's no way to tell a lie That's no way to tell a lie

I hear you've got something to say But first you need some people to say it to Just before you rise from the dead
