

Celebrate

James Durbin

Some say that love is just a matter of time
You've gotta search high and low, or you can never find
It took some time to fix that piece of my mind
But I'm thankful everyday for the love of my life

I wanna celebrate, celebrate my life with you,
Celebrate, Ooh baby,
I just gotta celebrate, climb a little higher with you,
Fly a little higher with you, Baby

You use to be lonely, well girl so was I,
We can take it slowly, if you give it a try,
At the edge of the earth with my arms open wide,
We can keep on turning like the wheel in the sky,

I wanna celebrate, celebrate my life with you,
Celebrate, Ooh baby,
I just gotta celebrate, climb a little higher with you,
Fly a little higher with you, Baby

Ooh, the stars in my eyes,
Sun shinin' too, I wanna waste my time with you,

I wanna celebrate, celebrate my life with you,
Celebrate, Ooh baby,
I just gotta celebrate, climb a little higher with you,
Fly a little higher with you, Baby

I wanna celebrate, celebrate my life with you,
Celebrate, Ooh baby,
I just gotta celebrate, climb a little higher with you,
Fly a little higher with you, Baby

I wanna celebrate, celebrate my life with you,
Celebrate, Ooh baby,
I just gotta celebrate, climb a little higher with you,
Fly a little higher with you, Baby

[keeps repeating ending until it ends]
