

# Live Right Now

James Durbin

Go out swinging  
All in or nothing  
Believe in something  
Impossible

Burn out brighter  
Dream in colour  
Feeding the fire  
Heart and soul

These are the days  
When we all stop running  
These are the days  
When we face what's coming  
Take on today like there's no tomorrow  
No tomorrow  
Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
I wanna live right now now now now, yeah

Kicking, screaming,  
Smiling, bleeding  
Finally feeling  
Something real

Over faster  
To the moment you're after  
Chasing shadows  
Endlessly

These are the days  
When we all stop running  
These are the days  
When we face what's coming  
Take on today like there's no tomorrow  
No tomorrow  
Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
I wanna live right now now now now yeah

Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
I wanna live right now now now now yeah

These are the days  
When we all stop running  
These are the days  
When we face what's coming  
Take on today like there's no tomorrow  
No tomorrow  
Don't wanna live forever!

Don't wanna live forever ever ever  
Don't wanna live forever ever ever

Don't wanna live forever ever ever  
I wanna live right now now now now yeah

Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
Don't wanna live forever ever ever  
I wanna live right now now now now yeah
