

Lost Woman

James Gang

Don't know where to run to, don't know where to hide
See my future comin', but I try to keep my pride
But I lost you, lost you woman
The only woman, woman who was my kind

She make me lose my money, she make me lose my name
After what ya done me I can only treat ya sane
But I lost you, lost you woman
The only woman, woman who was my kind

But if you come back, I won't be the same
After what you done me I can hardly treat ya sane
Cause I lost you, lost that woman
Only woman
Woman who was my kind
