

# You Never Know What You Got

James Ingram

I know you'll never find another love like mine  
And I know just what you're gonna do  
You've said those words before, walked out and closed the door  
But you'll come right back; you know it's true  
We had so many times together  
And we always seemed to make the magic last  
If we let it get away, the love we had may never be the same and

You'll never know what you got until it's over  
You'll never know what you're missing  
Till love slips away  
You'll never know what you got until it's over  
And you're all alone sitting by the phone

I guess I'll never see my place in history  
And I know just what I'm gonna do  
I'll write a page in time and make you change your mind  
And you'll see how much you mean to me  
I know I'll never be a hero  
Or the kind of guy who sets the world on fire  
But if you let me try, I know I'd give the sky to you and

You'll never know what you got until it's over  
You'll never know what you're missing  
Till love slips away  
You'll never know what you got until it's over  
And you're all alone sitting by the phone
