

# Coming Home

James LaBrie

Feels like rain  
Closing in on me again  
Cant deny  
Angry skies are falling  
So farewell  
Wish there was some other way  
Cant undo, There's no use in trying  
I hope that they will understand

Know that  
I wont be coming home  
Far away from where I belong  
Tell my wife, my best friend  
Both my children I love them  
Know that I,  
Know that I wont be coming home

Speak the truth  
Know me for the man I am  
Don't you cry  
Water came from dying  
Know me for the man I am

Know that  
I wont be coming home  
Far away from where I belong  
Tell my wife, my best friend  
Both my children I love them  
Know that I,  
Know that I wont be coming home

What if I,  
I told you then  
Could you help me  
Would you help to  
Set me free  
I cant feel any remorse  
Have no recourse

Apathy  
Apathy

Running out of time  
I hope they will understand

Know that  
I wont be coming home  
Far away from where I belong  
Tell my wife, my best friend  
Both my children I love them  
Know that I,  
Know that I wont be coming home
