

Just Watch Me

James LaBrie

I've realized the errors of my ways
I've come to terms that I've gone astray
I'm far from perfect
I know that I have let you down
But that will change this time around
I'll earn your respect
I'll earn your respect

No promises broken
That's for sure
No wishin' and hopin'
I'll find a magic cure
This time I'll do things differently
This time I will do it
Just watch me

It's clear you're scared and I understand
It's not been great just like we planned
But I will show you
But I Will Show You

No promises broken
That's for sure
No wishin' and hopin'
I'll find a magic cure
This time I'll do things differently
This time I will do it
Just watch me

No promises broken
That's for sure
No wishin' and hopin'
I'll find a magic cure
This time I'll do things differently
This time I will do it
Just watch me

No Promises Broken
That's for sure
No wishin' and hopin'
I'll find a magic cure
This time I'll do things differently
This time I will do it
Just watch me
