

For What I Need

James Marsters

I'm goin' swimmin' now
Get up your stream, baby
Gonna get wet, yeah

For what I need
What I need
Is you baby

Yeah, I'm goin' climbing now
I'm gonna get high
Up your peaks baby

For what I need
What I need
Is you baby

I don't care what you put in my way
Not nearly
Not ever since I met you
Now I'm like a heat seeking missile, baby

For what I need
What I need
Is you baby

Well, I'm goin' walking now
The only problem
Up early on that road
I said the only problem is
To get home to you baby
If I don't get to you
I think I'm gonna go insane

For what I need
What I need
Is you baby

Yeah

I don't care
What kind of hole is in the ground
I don't care
What kind of ocean is in between me and you
No baby I ain't gonna go halfway
I'm gettin' to you
Watch out

Watch out
