

# For What I Need

James Marsters

I'm goin' swimmin' now  
Get up your stream, baby  
Gonna get wet, yeah

For what I need  
What I need  
Is you baby

Yeah, I'm goin' climbing now  
I'm gonna get high  
Up your peaks baby

For what I need  
What I need  
Is you baby

I don't care what you put in my way  
Not nearly  
Not ever since I met you  
Now I'm like a heat seeking missile, baby

For what I need  
What I need  
Is you baby

Well, I'm goin' walking now  
The only problem  
Up early on that road  
I said the only problem is  
To get home to you baby  
If I don't get to you  
I think I'm gonna go insane

For what I need  
What I need  
Is you baby

Yeah

I don't care  
What kind of hole is in the ground  
I don't care  
What kind of ocean is in between me and you  
No baby I ain't gonna go halfway  
I'm gettin' to you  
Watch out

Watch out
