

Too Fast

James Marsters

I know you are going too fast
For me to ever sneak up on you
You don't want one pair of arms
To hold you night after night after me

You look at me with smoky eyes, sayin'
Come over here fella and see how warm the water is
But you've got eyes from all the guys now
What's just one more
What am I like a potato chip to you

It sounds nice if it were true
Last night I dreamed of you
But what does that mean anyway

It sounds nice if it were true
Last night I dreamed of you
But what does that mean anyway

I know you are going too fast
For me to ever sneak up on you
And one night stands burn me so good but
I'm afraid I'd fall this time
And that wouldn't be so sexy to you
