

## Burns Like Summer Sun

James Morrison

Oh, I'm counting down Hoping the time has come, to let it out  
And every time I try to breathe I feel suffocating I'm on my knees  
I felt the cold and dark went through my veins Shivered when  
I heard her call my name

She burns like summer sun I know she's the only one I want  
Even when she's gone away

I feel the heat on my skin, and my head start spinning  
Too much is never enough She burns like summer sun for me

Oh, I'm holding out Now that the time has come, for giving in  
So ... to keep me warm Take away my pain Help me forget it all  
I felt the cold and dark went through my veins Shivered when I heard  
her call my name

She burns like summer sun I know she's the only one I want  
Even if she's gone away I feel the heat on my skin, and my head  
start spinning Too much is never enough She burns like summer sun  
for me

No, yes she burns

Shalalalalalalalala The time has come I'm counting down  
Held my breath and I'll let it out Now there's nothing left she can  
take, from me

She burns like summer sun I know she's the only one I want  
Even if she's gone away I feel the heat on my skin, and my head  
start spinning Too much is never enough She burns like summer sun  
for me

She burns like summer sun Oh no, burns like summer sun  
Oh no, burns like summer sun Sing with me now Burns like summer  
sun for me
