

# Forever

James Morrison

Well my mama used to say  
If you find a nice girl  
It'll all work out  
And my daddy used to say  
If you can't do what you feel  
Son, just walk out  
But they don't know a thing about us  
We're wild and free  
But freedom ain't such a good thing  
When you tell me to leave

Why'd you do a thing like that?  
I'm begging of you  
Won't you take me back  
Even if everything we see is black  
There's still a chance that we can make it back

I said that it's forever  
Forever's what I mean  
I look at you forever  
Forever's all I see

I can take the blows  
But you punch a little low  
And it hurts me there  
Of course I feel the love  
That should be enough  
But you don't play fair  
I wanna hear the sweet sweet music  
Of your apology  
But you just say you're sorry  
That you ever set your eyes on me

Why'd you do a thing like that?  
I'm begging of you  
Won't you take me back  
Courtesy of  
Even if everything we see is black  
There's still a chance that we can make it back

I said that it's forever  
Forever's what I mean  
I look at you forever  
Forever's all I see

Cross the line to dream of golden skies  
I see the door you close behind your eyes  
Break it down  
Break it down  
Break it down

Forever, forever's what I need  
When I look at you  
Forever, forever's all I see  
I wanted to be close  
It's what I miss the most  
I ain't ever felt so low

When you spit me right out

Why'd you do a thing like that?

I'm begging of you

Won't you take me back

Even if everything we see is black

There's still a chance that we can make it back

I'm telling you

Why'd you do a thing like that?

I'm begging of you

Won't you take me back

Even if everything we see is black

There's still a chance that we can make it back

I said that it's forever

Forever's all I see

I look at you forever

Forever's all I see
