

# Once When I Was Little

James Morrison

I was the one who would always jump in first  
I didn't think twice to look behind  
Got such a good feeling just from playing in the dirt  
Once when I was little

We could build a rocket, fly to the moon  
Leave Tuesday morning, be back for noon  
And there wasn't nothing, nothing that we couldn't do  
Oh, once when I was little, once when I was little

Yeah, I could dream more then  
I could believed more then  
That the world could only get better

I could be free more then  
I could pretend more then  
That this life could only show me good times  
Once when I was little

There was a time when I trusted everyone  
There was no place that I would not go  
Spend all day on the hillside next to the barley mow  
Oh, once when I was little, yeah, once when I was little

Yeah, I could dream more then  
And I believe more then  
That the world could only get better

I could be free more then  
I could pretend more then  
That this life could only show me good times  
Once when I was little

I used to feel so strong  
Even when they'd tell me, tell me I was wrong  
That I can't live in a magic world  
'Cause it's time for me to grow up  
And I've got to live like the rest of them  
Well, I know things have been lost

Oh, I could pretend more then  
And I could believe more then  
That the world, it would only get better

Oh, I could believe more then, yes I could  
And I could pretend more then  
That this life, it could only show me good times  
Once when I was little

So here comes the next one, next in line  
Stay as young you can, for the longest time  
'Cause those days flew by  
Like a breeze just passing through  
Once when I was little
