I'm trying to change to make the best, for us But I'm just the same same as I ever was

Oh and if you stay with me honestly it's what I want But if you stay with me I know I'll hurt you more

So won't you save, save yourself by leaving me now For someone else if I'm crying out don't listen to it It's only my heart save yourself it's only my heart Oh no

So tell me I'm wrong please won't you change, my mind This loves so intense sometimes it can lead, you blind

Oh and if you stay with me honestly it's what I want But if you stay with me I know I'll hurt you more

So won't you save, save yourself by leaving me now For someone else if I'm crying out don't listen to it It's only my heart save yourself It's only my heart save yourself

And I don't want to let you go
But I know
that it's the right thing to do baby
And I don't think I'm that strong
to say goodbye
I don't wanna see you cry

So won't you save, save yourself by leaving me now For someone else if I'm crying out don't listen to it It's only my heart save yourself
