

Groovy Little Summer Song

James Otto

When the days start gettin' warmer
And the sun starts sinkin' slower
Weekends go by faster and beer starts tastin' colder
Wanna tune into a station takes me on a soul vacation
Hey there mister DJ come on won't you please play

One that we can dance to
Start a big romance to
Make it pretty simple so we all can sing along
While cruisin' with the top down
Crank it up real loud
Groovy little summer song
Yeah

Make me feel the rhythm of one tropical islands
Take me to a beach somewhere everyone is smilin'
Sippin' margaritas and eyein' señoritas
I can almost see 'em swayin' once ya start playin'

One that we can dance to
Start a big romance to
Make it pretty simple so we all can sing along
While cruisin' with the top down
Crank it up real loud
Groovy little summer song

Play that guitar now come on
Play somethin' sexy to make her fall in love with me
Won't you please

Play one that we can dance to
Start a big romance to
Make it pretty simple so we all can sing along
While cruisin' with the top down
Crank it up real loud
Groovy little summer song
Yeah

Play one that we can dance to
Start a big romance to
Make it pretty simple so we all can sing along
While cruisin' with the top down
Crank it up real loud
Groovy little summer song
Yeah my groovy little summer song
Feels like summer time to me
Pass me a beer
