

Take A Giant Step

James Reyne

It's everywhere outside your window
Just beware, just you chill
Truth laid bare, if this don't get you
Next thing will

The rag and bone man
He's trying to scare you
Drag you down, feeling fine, don't you frown
Waiting at the end of, the end of the line

The man who waits under your bed
"Meet me tonight", he said
Take a giant step now
Take a giant step now

Dust on the Bible
The man who waits behind your door
You can't feel, you can't score
Breathing on his face to make him real

The man who waits under your bed
"Meet me tonight", he said
Take a giant step now
Take a giant step now

The man who waits under your bed
"Meet me tonight", he said
Take a giant step now
Take a giant step now

Under, under your bed
Under, under your bed

The man who waits under your bed
"Meet me tonight", he said
Take a giant step now
Take a giant step now

The man who waits under your bed
"Meet me tonight", he said
Take a giant step now
Take a giant step now

The man who waits under your bed
The man who waits under your bed
Take a giant step now
Take a giant step now
