## **Take A Giant Step**

## James Reyne

It's everywhere outside your window Just beware, just you chill Truth laid bare, if this don't get you Next thing will

The rag and bone man
He's trying to scare you
Drag you down, feeling fine, don't you frown
Waiting at the end of, the end of the line

The man who waits under your bed "Meet me tonight", he said
Take a giant step now
Take a giant step now

Dust on the Bible
The man who waits behind your door
You can't feel, you can't score
Breathing on his face to make him real

The man who waits under your bed "Meet me tonight", he said
Take a giant step now
Take a giant step now

The man who waits under your bed "Meet me tonight", he said
Take a giant step now
Take a giant step now

Under, under your bed Under, under your bed

The man who waits under your bed "Meet me tonight", he said
Take a giant step now
Take a giant step now

The man who waits under your bed "Meet me tonight", he said
Take a giant step now
Take a giant step now

The man who waits under your bed The man who waits under your bed Take a giant step now Take a giant step now
