

Water Water

James Reyne

Watch the world turn, it's a slow burn
Smoking in the distant light
See the big sky, see it roll by
Day is turning into night

All your troubles, dust and rubble
All the cares you had today
There's no big sign on the hard line
Washing all your cares away

Water water
Run over me
Water water
Run over me

Give me season, give me reason
Baby doll goes, boogaloo be a good girl
Bring me my buffalo horn
Bring me my head-dress too

He's got the Indian mind
He's got the Indian law
He's got the Indian mind
Bring me my shadow
He's got the Indian law

Water water
Run over me
Water water
Run over me

Go watch a river burn
Go watch the seasons turn
