You're going to murder in the name of God What kind of God you dreaming of?
A God of blood not love

So, you can get your 72 Virgins to abuse I hope they kick like mules

War, war

My God's bigger than your God He made the world run out of puff More important things to do

War, war

It's black, it's white, a fight An elephant gray There's this universe at stake We get in the way

Go left, go right, straight on Just do what they say There's a universe at stake We get in the way

It's black, it's white, a fight
An elephant gray
There's a universe at stake
We get in the way

Go left, go right, straight on (War)

Just do what they say

There's a universe at stake (War)

We get in the way

War, war, war, war
