

It's my shout  
This wine is melting the bounds  
Between good taste  
And what I might say  
Matador  
Swing your blood red cape  
Ole, Ole  
I was born an asshole

You've seen the best in me and you've seen the worst of me  
So don't expect me to be not thinking out loud  
You've seen the best in me and you've seen the beast in me  
So don't expect me to be not thinking out loud  
I'm not thinking out loud  
I'm not thinking out loud  
I'm just thinking out loud

Don't ask this songbird  
To hide his song lines  
Blown my alibi  
Don't ask this songbird  
To hide his song lines  
Sing what's on my mind

Double life  
Is surely breaking my back  
I can't fly  
But I can Catapult

You've seen the best in me and you've seen the worst of me  
So don't expect me to be not thinking out loud  
You've seen the best in me and you've seen the beast in me  
So don't expect me to be not thinking out loud  
I'm not thinking out loud  
I'm not thinking out loud  
I'm not thinking out loud

Don't ask this songbird  
To hide his song lines  
Blown my alibi  
Don't ask this songbird  
To hide his song lines  
Sing what's on my mind

Trouveur  
Minstrel  
Whistleblower  
Undercover  
Singer  
Liar

Don't ask this songbird  
To hide his song lines  
Blown my alibi  
Alibi  
Don't ask this songbird  
To hide his song lines

Sing what's on my mind
