

## Out to Get You

James

I'm so alone tonight  
My bed feels larger than when I was small  
Lost in memories  
Lost in all the sheets and old pillows  
So alone tonight  
Miss you more than I will let you know  
Miss the outline of your back  
Miss you breathing down my neck

They're all out to get you  
Once again they are all out to get you  
Once again

Insecure, what you gonna do  
Feel so small they could step on you  
Called you up, answering machine  
When the human touch  
Is what is need  
What I need (4x)  
Is you  
I need you

Looked in the mirror, I don't know who I am anymore  
The face is familiar  
But the eyes, the eyes give it all away

They're all out to get you  
Once again they're all out to get you  
Here they come again (8x)

Insecure what you gonna do  
Feel so small they could step on you  
Called you up, answering machine  
When the human touch  
Is what I need  
What I need (8x)  
Is you (6x)  
If you let me breathe (5x)

They're all out to get you  
Once again  
To get you  
Once again
