

## Upside

James

Send seasonal greetings from nowhere  
I'm working and playing away  
Remember the moment of leaving  
Yesterday, yesterday

Roll through these towns, over seas, over mountains  
Lucky to work when work is scarce  
Father must feed, must provide, he must fountain  
Left my heart within your care

Upside, love you, downside, miss you  
I'm here, you are there  
Upside, working, downside, hurting  
Hear my echo, dancing bear

Connected to you by a mobile  
What I can't do, I can say  
Away from you, I'm feeling empty  
I am raining, I am gray

Upside, love you, downside, miss you  
I'm here, you are there  
Upside, working, downside, hurting  
Hear my echo, dancing bear

My work's about words and sounds you can taste  
Violins and trumpets, chocolate cakes  
Here are some words, words you can taste  
Here are some words, kissing your face

Upside, love you, downside, miss you  
I'm here, you are there  
Upside, working, downside, hurting  
Hear my echo, dancing bear
