

# Wisdom of the Throat

James

Everybody needs an off day  
Everybody needs some room,  
Cut some slack,  
Get back,  
You're too close,  
Too soon,

You say "let's walk together",  
The forecast's fine,  
Don't hold on to forever,  
Just take your time,  
What was I thinking of,  
What was I thinking of,

You say I take forever,  
Just take my time,  
You took a while to discover,  
You're mine,  
You're mine,  
You're mine,

Everybody wants to love somebody,  
Everybody needs to need somebody,  
Someone said,  
The wisdom in her throat,  
Is deeper than my head,

I don't need, I don't need just anybody,  
To share my body with  
But I,  
But I,  
But I need you in my bed,  
What was I thinking of,  
What was I thinking of,

You say I take forever,  
Just take my time,  
You took a while to discover,  
You're mine,  
You're mine,

You say I take forever,  
Just take my time,  
You took a while to discover,  
You're mine,  
You're mine,  
You're mine,  
You're mine,  
You're mine,  
You're mine,  
You're mine,  
You're mine,  
You are mine,  
You're mine
