

Falling

Jamestown Story

I feel like I'm falling,
Seriously falling
Hard for you
Oh forever's a long time
But far from enough time
To spend with you

I will always be there
I will always be there

So fall,
I'll be behind you,
I'll be there to guide you
When you've lost your way
Yeah, forever's long time
But far from enough time
To spend with you

I will always be there
I will always be there

So go call your parents
And tell them the good news
Say you've fallen hard
And there's someone that needs to meet you
We'll pick out a white dress
And grab two golden bands
The world stared in jealousy
Cause they don't understand like you and me

I will always be there
I will always be there
I will always be there
I will always be there

I feel like I've fallen
Seriously fallen
Hard for you
