

I Don't Wanna Lose You

Jamestown Story

I've been losing sleep for a while now
Thinkin' about us
And its hard to pretend that we're doing okay
When we're not
And its killing me slowly

I need you in my life
Or I'm not alright
So don't walk away
I won't be okay if you do
I just don't wanna lose you

You've been losing faith
For a while now
And I'm lost for words
And for we are having problems
If you are willing we can solve them
In time
I'm just begging you to try

I need you in my life
Or I'm not alright
So don't walk away
I won't be okay if you do
I just don't wanna lose you

I need you in my life
Or I'm not alright
Please don't walk away
I need you to stay
To get through
Somethings gotta give

I hope we can get passed all the problems have
And let go
cause I still believe we have the chance

I need you in my life
Or I'm not alright
So don't walk away
I won't be okay if you do
I just don't wanna lose you

Everynight I dream about the days you and I
Both seem so happy
If only I knew what we'd go through to get here
