

I'll See You Someday

Jamestown Story

I had a friend that went home to god
At least thats what I'm hoping
But thats how life goes
Like it or not
You couldn't know how I felt
When you went away
And now I know my life
Will never be the same
(be the same [x2])
It will never be the same without you
I don't want
This to be the end
I don't want
To have to say goodbye
I don't want
This to be over
but this is not over
I'll see you someday down
At the end of lifes road you'll be there
With your arms wide open
But until then I guess this is goodbye
You were the one that kept me in line
When I got to crazy
Now that you're gone
I'm doing just fine
But it seems lately that I
Cry myself to sleep
Cuz I know that you
Will never be with me
I don't want
This to be the end
I don't want
To have to say goodbye
I don't want
This to be over
but this is not over
I'll see you someday down
