

Under The Stars

Jamestown Story

Watching the stars at night, there's nothing that I'd rather do
The moon is the only light, that I can use to look at you
So let's make this memory last, of this night that we've come t
o claim ours
I promise I'll never forget, such a perfect night under the sta
rs
The air is warm with comfort, the air is warm with taste
There's nothing we have to look out for, so let's make the most
of this place
I promise you...
