

# Baby Don't Cry

Jamey Johnson

The three little pigs have done built up their home's  
And the wolf's been chased from the door  
And little Bo Peep has done found all her sheep  
And now she ain't lonely no more  
And the monsters ain't under your bed  
It's time to lay down your head

But baby don't cry  
Your never alone  
When you need your daddy  
Just pick up the phone  
And I'll fly  
As fast as I can  
And I'll hold your hand  
And I'll make you smile again  
But baby don't cry

The princess is waiting for the prince to ride in  
And scare all the dragons away  
But she's stuck in that castle as you close your eyes  
And drift off to that fairytale place  
So pretend I'm right there by your side  
And we'll save the princess tonight

But baby don't cry  
Your never alone  
When you need your daddy  
Just pick up the phone  
And I'll fly  
As fast as I can  
And I'll hold your hand  
And I'll make you smile again  
But baby don't cry

Baby don't cry  
Baby don't cry  
Baby don't cry
