

That's How I Don't Love You

Jamey Johnson

I used to wake up early
Just so I could watch you as you sleep
That's how I love you

Forever was a promise
That wasn't very hard for me to keep
That's how I love you

Pour habits in the carnal sin
Has left me in a crooked state of mind
That's how I love you

Now I just pour the poison in
And act like it's my new best friend at night
And I cry
And that's how I don't love you anymore

Ain't no sense in yell'n
Ain't no use in dwell'n on the past
That's how I love you

An sit'n here miss'n you
A waste of time and life goes by to fast
That's how I love you

Pour habits in the carnal sin
Has left me in a crooked state of mind
That's how I love you

Now I just pour the poison in
And act like it's my new best friend at night
And I cry
And that's how I don't love you

I used to wake up early
Just so I could watch you as you sleep
That's how I love you
