

Everything You Didn't Do

Jamie Cullum

I will meet you in the city
When it's lit up by the stars
In the moonlight we're all pretty
Cos it papers over scars

Ever feel like you belong
To a story you ain't heard
Doesn't matter if it's your song
And you don't know all the words

We should put up a sign
We are citizens of all you can see
We've got nothing but time
Cos you'll find
Everything you didn't do (2x)
Is standing right in front of you

A euphoric combination
Of a thousand dirty hands
There's no need for complication
On the shoulders we will stand

It's a patient exploration
Where discovery is free
There's no need for explanations
We exists where we can see

I don't even know what to say about every little thing
Cos I'm tired and I want to go to sleep
It's so clear now (6x)
That you'll find
Everything you didn't do (4x)
Is standing right in front of you
