

# Everything You Didn't Do

Jamie Cullum

I will meet you in the city  
When it's lit up by the stars  
In the moonlight we're all pretty  
Cos it papers over scars

Ever feel like you belong  
To a story you ain't heard  
Doesn't matter if it's your song  
And you don't know all the words

We should put up a sign  
We are citizens of all you can see  
We've got nothing but time  
Cos you'll find  
Everything you didn't do (2x)  
Is standing right in front of you

A euphoric combination  
Of a thousand dirty hands  
There's no need for complication  
On the shoulders we will stand

It's a patient exploration  
Where discovery is free  
There's no need for explanations  
We exists where we can see

I don't even know what to say about every little thing  
Cos I'm tired and I want to go to sleep  
It's so clear now (6x)  
That you'll find  
Everything you didn't do (4x)  
Is standing right in front of you
