

Music Is Through

Jamie Cullum

If you wanna get with me
Then you've gotta pin me down
Cover everything you see,
In the sweat that I could drown

Watch it fall and let it die,
The rain will cut you open now
All the words are plagiarised,
They crystallise your tears somehow

If you look like you wann, baby I don't
Mind if I do
Girl I got your number,
Call you when the music is through
If you look like you wanna, baby I don't
Mind if I do
Girl I've got your number,
Call you when the music is through

If you wanna fuck with me,
Lord you'll never bring me down
All the things you never see,
In the sweat I could drown

If you wanna fuck with me,
Then you gotta get me down
All the things you never see,
In the sweat I could drown

If you look like you wanna,
Baby I don't mind if I do, do, do
Girl I've got your number, call you when the
Music is through, through, through
If you look like you wanna, baby I don't
Mind if I do, do, do
Girl I've got your number, call you when the
Music is through, through, through

If you wanna get with me,
Then you've gotta pin me down
Everything you see's for free,
In the sweat I could drown

If you look like you wanna,
Baby I don't mind if I do, do, do
Girl I've got your number, call you when the
Music is through, through, through
If you look like you wanna,
Baby I don't mind if I do, do, do
Girl I've got your number, call you when the
Music is through, through, through
