

# Sleeping Pill

Jamie Foxx

- You OK?
- Yeah, wha... what happened?
- We went out
- We went out where?
- You were asleep

Damn I've must of fallen asleep  
All that I remember girl is turning you over  
I'm having flashbacks of your feet  
Onmy chest, around my waist, and over my shoulder  
That thing was stronger than patrone, got me higher than some weed, hit me h  
arder than some me  
I guess I took the most of whatever you gave me  
And it's all I need from you  
With the money inside  
Girl it feels like I just took a sleeping pill  
Girl you got that sleeping pill  
Had me in the coma all night  
So long I coulda got robbed  
Girl you have the sleeping pill, oh you got that sleeping pill

Damn you must be playing for keeps  
Sex's so good m y toes are numb and I can't feel my fingers  
Girl what you do with your love  
Got your body singing harmony but Shorty you ain't no singer  
You should know that a part of me to share with you never wants to wake up,  
we made a connection  
With your love inception

With the money inside  
Girl it feels like I just took a sleeping pill  
Oh you got that sleeping pill  
Had me in the coma all night  
So long that I coulda got robbed  
Girl you got the sleeping pill, oh you got that sleeping pill  
Kinda low but I'm feeling it

I lost control, next thing I know, body wouldn't go, last I remember  
Was closing my eyes, kissing your lips and went down to your thighs and then  
After tonight, you changed my life, don't be surprised  
TV on Oprah broke downto my knees, promoting my book about what you did to m  
e
