

## Little Ol' Me

Jamie Grace

Well I was just a kid coming up those steps, all dressed up in my Sunday best, learning to sing, learning to stand, right in the front holding momma's hand.

I still remember listening to my dad, even if I didn't always understand, cause deep in his heart, deep in his soul, there was a fire that I wanted to know.

And those memories are still burning bright.

Oh Jesus, how I love the way you're writing in my life.

However could it be to have a part in a story bigger than what I can see.

Little ole me, little ole me.

And I may not know your plan, but I'm safe within Your hands, cause I know that You believe in little ole me, little ole me.

Walking through the halls on my way to class, caught my reflection in the trophy glass.

Who is this girl trying to be and who in the world is she trying to please?

Suddenly ignited by a spark, I hear my saviors voice right to my heart.

Don't give up now and don't be afraid.

You know who you are, you've got something to say.

And those memories are still burning bright. Oh Jesus, how I love the way you're writing in my life.

However could it be to have a part in a story bigger than what I can see.

Little ole me, little ole me.

And I may not know your plan, but I'm safe within Your hands, cause I know that You believe in little ole me, little ole me.

Turning the page, I'm up on stage, but I'm still a kid in a lot of ways. So many dreams are coming true, but Lord when they see me, I hope that they see you, nothing but you.

God I know, I know you got big plans for me. (4x)

However could it be to have a part in a story bigger than what I can see. Little ole me, little ole me. And I may not know your plan, but I'm safe within Your hands, cause I know that You believe in little ole me, little ole me.

God I know, I know you got big plans for me. (8x)
