

# With You

Jamie Grace

My left brain is racin' free  
And ADD's been chasin me all day  
Wait, what did You just say? (okay, okay)

See I misplaced my master plan  
Courtesy of my attention span  
But I'm a be okay

Just need a little You and me time  
Hit the rewind  
It all comes into view

When I'm with You  
When I'm with You  
It's like anything, everything  
That's been weighing on me  
Falls by the wayside  
When I'm with You  
I love being with You

I smile when You say my name  
Cause no one's ever said it quite the same  
I listen for it everyday (You know, You know)

On cue, it's You perfect timing  
Dusting off that silver lining for me  
So I can finally see

Yeah It's like a cool breeze blown through my hot pink hair  
On a Sunday afternoon

When I'm with You  
When I'm with You  
And anything, everything  
That's been weighing on me  
Falls by the wayside  
When I'm with You  
I love being with You

I can't imagine life without You  
Could not make it on my own  
I could write a thousand lines  
Why being with You feels like home

So when You offered me salvation  
How could I ever say no?  
I'll never find a greater beauty  
Than the beauty that You're bringing  
Bringing to my soul  
My soul

When I'm with You  
When I'm with You  
It's like anything, anything  
Everything, everything's  
Fallin' by the wayside  
It's like anything, anything

Everything, everything  
Falls by the wayside  
When I'm with You...  
I love being with You
