

A Little Bit More

Jamie Lidell

I hope you'll understand what I'm saying to you
Never had a relationship
And now I'm telling you we're through
There ain't no easy way to get out of here
Got so good at hiding
Never made my feelings clear
Let me take a moment now to spell it out
When all this is over
I trust there'll be no doubt

All I want is the best for you but
There's only so much I'm willing to do
And the rest?
You gotta find someone else

'Cause with you
It's always
(More a little bit more)
'Cause with you
It's always
(More a little bit more)
'Cause with you

Don't make it harder than it already is
'Cause it already is
Quite enough for me
I can take it for a little while
But a little while ain't gonna be
What you had in mind
'Cause what you had in mind
You know you'll never find in a fella like me
It ain't no mystery from my history
I'm the kind of fool that can't see
In front of me

And all you ask from me is

A little bit more

Got so complicated after we touched each other
I must admit it felt so good but you have another
You've been fighting so long how could you forget it?
We could do a whole lot of things but you're sure to regret it
With us it's over before it's begun
You got a good thing
So keep it going on
With us it's over before it's begun
You got a good thing
So keep it going on
All I want is the best for you but
There's only so much I'm willing to do
All I want is the best for you but
There's only so much I'm willing to do
And the rest?
You gotta find somewhere else
