

## Little Bit Of Feel Good

Jamie Lidell

Just the sound of your voice  
Drowning out all my noise  
When you call my name mysteriously  
All the source to let me see

Little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away

Just a look of those eyes, cutting through my smokey skies  
And the parts of me that grow from you  
Cleared my vision so that I could see

Little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away

Just the smell of you hair follows me everywhere  
Your sweet alchemy turned trouble to gold  
Transforming it all to let me know

A little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray  
Please don't make my feel good go away

Little bit of feel good goes a long way  
I need your touch to get me through my day  
Watching you sleeping I pray

Please don't make my feel good go away  
Please don't make my feel good go away  
Please don't make my feel good go away

Please don't make it go away
