

## When Did You Know

Jamie O'Neal

Did you know when you were holdin' me  
By that fire in Jackson Hole  
That you were gonna let me go  
And did you know when we were flyin' home  
I was fallin' hard for you  
I thought you were the one  
Were you only havin' fun

When did you know  
We weren't lookin' at forever  
How could we be so close  
And still not be together  
Every dream I believed  
Has now come down to just one question  
When did you know it wasn't love  
When did you know it wasn't me

How can you make a woman feel that way  
While you never feel a thing  
Why did you do that to me  
And how can you keep your heart set on freeze  
While you set my soul on fire  
I don't understand it yet  
I'm still tryin' to catch my breath

When did you know  
We weren't lookin' at forever  
How could we be so close  
And still not be together  
Every dream I believed  
Has now come down to just one question  
When did you know it wasn't love  
When did you know it wasn't me

Oh, every dream I believed  
Has now come down to just one question  
When did you know it wasn't love  
When did you know it wasn't me  
Baby, when did you know?
