

In Depth Perception

Jamie's Elsewhere

I've become
An error to the whom
A constant burden
The idealist
You never understood
And all I ever wanted was
You to lock me in your arms
So he couldn't lock his hands around my life
Is this tough love

We are the future
We are the past
And we are the present
So hear us out

Since I can remember
I was always one to blame
For the loss of his honor
He held my mothers name in vain
I will always remember
But you can't remember
Cause you're just a boy
Placing blame upon himself
Your misconception

We are the future
We are the past
(You're just a boy)
And we are the present
(Placing blame upon himself)
So hear us out

(But you can't remember)
We!
(Cause you're just a boy)
We are the broken
(Cause you're just a boy)
We are the past, the present, the future
(Placing blame upon himself)
So hear us out
(But you can't remember)
Can you hear me now?
