

Lady West

Jamie Scott

I was waiting for destination to come
I was waiting for you and baby you're the one

Only woman I see beyond the looking glass you know

I've been daydreaming wasting in the sun
Life has just begun ah baby you're the only one

Yeah yeah
Only woman I see beyond the looking glass you know
yeah yeah

Long legs that I've never seen
Remind me of some Gucci queen
She dances so fine
She says to me says to me
How you been
I've been fine
But love you ain't got to cry
'Cause she ain't got nothing on you

We've been married for time
Oh I've seen the sun shine
Come lady pour the wine

Baby you're the only one
Yeah, yeah
Only woman I see beyond the looking glass you know
