

# Shoulda

Jamie Woon

Walked when I shoulda run  
Ran when I shoulda walked  
And don't I know  
And don't I know

Walked when I shoulda run  
And I ran when I shoulda walked  
And don't I know  
And don't I know

You get inside me  
Even when you ain't beside me  
And I go into hiding  
And I know I never leave it alone

'Nother round of if only's  
Of all the ways you can know me  
How I take time going slowly  
All the time that I did on my own

Still I walked when I shoulda run  
And I ran when I shoulda walked  
And don't I know  
And don't I know

Well I walked when I shoulda run  
And I ran when I shoulda walked  
And don't I know  
And don't I know

And your head's in the ocean  
Too deep to know where you're going  
Hoping time can be frozen  
And you'll end up where you really belong

But the days keep on rolling  
We live in different moments  
And our hurt is unfolding  
Everyday that we do and we don't

Still I walked when I shoulda run  
And I ran when I shoulda walked  
And don't I know  
And don't I know

Well I walked when I shoulda run  
And I ran when I shoulda walked  
And don't I know  
And don't I, don't I, don't I know it  
No no no no no

Sign for what's been  
Sign for one that waits  
The line under what's been  
The line for what never waits

And the years are collected

I pray that we are regretless  
You and I - the connected  
You and I and the blood and the bone
