

Street

Jamie Woon

Walking and walking
Thinking on my feet
Anything can happen in the city
But you can't sit down
Building to building
Sheltering from the sky
Knowing there's somebody on the street
That could change my life

You can try on anything for free
Pick up anything you need
And I'm wishing you were here with me
Walking on a city street

Window to window
Filling in the hours
Catching my reflection
In a place I've never been before
Crossing the bridges
Leap the river wide
Knowing not in time
I'll arrive on the other side

You can try on anything for free
Pick up anything you need
And I'm wishing you were here with me
Walking on a city street
