

Come round  
Come round

All right let's take it from the top again  
Rewrite the pieces that ain't fitting in  
Bring it back to the ground  
Dust it down and sweep the floor  
High time to do what ain't been done before

Take a breath and the day comes round  
Hold it down and keep it calm  
If you can for the sake of things  
How do we get through tomorrow everyday  
I don't know but we get through it anyway  
Another day comes round

Right now we're older than we've ever been  
Swan out by dreams that could be happening  
Know just one thing that ain't  
Tomorrow's coming down the line  
Today's been dawning since the end of time

Take a breath and the day comes round  
Hold it down and keep it calm  
If you can for the sake of things  
How do we get through tomorrow everyday  
I don't know but we get through it anyway  
Another day comes round  
Another day comes round  
Another day comes round  
Oh, come round
