

# Love Blind

Jamiroquai

Love blind and you're on my mind  
Even when I'm walking the dog  
I'm carefree like this melody  
Hope this doesn't take us too long

Baby, turn me on  
You put fire in me every night  
I need the drug you got to give  
Keep it like that 'cos it's positive

Can't leave you to feel alone  
Step in the car let me take you home  
Slide right up and make you bend  
Now we did it once, can we do it again?

Baby, you got me hanging off the streetlights  
You got me singing with the bluebirds  
In the sky above  
I think I'm in love

Step to me, angel eyes  
You got the shake and I got the fries  
All black leather like a disco bitch  
Five feet nine with your ruby lips

You made me love blind  
And I can't get you off my mind  
Mama said stay away from girls like you  
Turn out the lights, I know what to do

Baby, rock the floor  
You gonna rock the floor tonight  
Baby, rock the floor  
Baby, rock the floor  
Baby, rock the floor  
You gonna rock the floor tonight  
Baby, rock the floor  
Baby, rock the floor  
Rock the floor tonight

Baby, you got me hanging off the streetlights  
You got me singing with the bluebirds  
In the sky above  
I think I'm in love

And you got me dancing on the ceiling  
You got me thinking about the whole world  
It revolves around you  
So what can I do?  
What to do?

Baby, rock the floor  
Baby, rock the floor  
Baby, rock the floor  
Kiss me twice and I need some more

Yeah, you're gonna rock the floor tonight

You've got me hanging from the streetlights  
You've got me climbing up the wall  
Everything you do reminds me of the good times  
Woah, baby, you know you made me so love blind

You're gonna rock the floor tonight  
You're gonna rock the floor tonight  
You're gonna rock the floor tonight  
You're gonna rock the floor tonight
