

# Never Gonna Be Another

Jamiroquai

Dust off that dusty photograph  
And think of how we laughed  
Roll up those shutters to your shop  
Cos now this circus got to stop

Flick through those dog-eared  
magazines  
When you were in the scene  
But now that you're gone...

There's never gonna be another  
Never gonna be another like you  
The people in the street are saying  
There's never gonna be another  
Woh... never gonna  
Never gonna be another like you

I watched your soul when it was young  
You'd finished when you'd just begun  
I'd like to take a feather from  
The wings that used to carry you  
So suddenly, you seem at peace  
We know that you have been released

Don't think they'll cry for you  
tomorrow  
They never cried for you that day  
But the people in the street are saying  
to me baby...

There's never gonna be another  
(There's never gonna be)  
Never gonna be another like you  
(When you were on the scene)  
There's never gonna be another  
(And now that you're gone)  
Woh... never gonna  
Never gonna be another like you  
(Never gonna be... another like you)  
You stepped into the light and you  
are the sun now

There's never gonna be another  
Never gonna be another like you  
(There's never gonna be another like  
you, another like you, when you were  
on the scene)  
There's never gonna be another  
(when you were on the scene yeh)  
Never gonna be another like you  
And dust off that dusty photograph  
and think of how we laughed yeh

Now that you're gone, I think of you,  
I think of you
