

# I Never Once Stopped Loving You

Jan Howard

The nights were dark and long I spent a million all alone  
But I never once stopped loving you  
My world was cold and still my dreams lay unfulfill  
But I never once stopped loving you  
I never once stopped believing we'd love again the way we used  
to do  
And today when you came back my patience was rewarded  
For I never once stopped loving you

I could have loved another but I chose the way and suffered  
For I never once stopped loving you  
I prayed to God to guide you till I could be beside you  
But I never once stopped loving you  
I never once stopped believing...
