Take Me To Your World

Jan Howard

If you can find it in your heart to just forgive I'll come back and live the way you wanted me to live All I want is just to be your girl please come and get me and take me to your world

Take me to your world away from barrooms filled with smoke Where I won't have to serve a drink or hear another dirty joke All I want is just to be your girl please come and get me and take me to your world

Take me to your world make me forget the things I've heard Where people say I love you and love is not a dirty word All I want is just to be your girl please come and get me and take me to your world
