

# They Listened While You Said Goodbye

Jan Howard

The birds stop their singing when I'm passing by  
And even the flowers just stand there and cry  
But they know the reason I have tears in my eyes they listened  
while you said goodbye  
You say what you're seeking is over the hill  
And that I'll find a new love but I never will  
For you didn't know my whole world stood still and listened while  
you said goodbye

The sun has stopped shining the moon hides it's face  
He promised so much now he hides in disgrace  
I guess all creation was there that night and listened while you  
said goodbye  
You say what you're seeking...
