Bride Song

Jana Kirschner

Summer is passing you by If you wanna take my cherry pie I'll be waiting for you I'll be waiting for you All alone Before the fall Like a bride Before the fall

Leaves are falling all around your door And you're afraid of being alone I never said you have to be all mine But when you miss someone

I'll be waiting for you I'll be waiting for you I'll be waiting for you All alone

Winter falls upon you hair You got to thinking that it's not fair Other lovers keep each other warm And you feel the cold

I'll be waiting for you I'll be waiting for you I'll be waiting for you All alone Before the fall Before the Fall Like a bride

I'll be all yours
