## What I Love About Your Love

Jana Kramer

The moon is brighter than the morning sun The birds sing sweeter and the bees they buzz A silly little song and we're humming along

Dancing like a dandelion, hands swinging in a breeze Floating like a butterfly, falling like an autumn leave It's no ordinary thing between you and me

It's what I love about your love Knocks me off my feet Takes me on a trip to another galaxy Smacks me with a smile longer than a country mile Gets my heart a runnin' like a river running wild I can never get enough That's what I love about your love

You lean over my shoulder and it's over and done Ain't nothing like a feeling of finding that one It's a piece of the puzzle Ain't no doubt about it It's a good kind of trouble

It's what I love about your love Knocks me off my feet Takes me on a trip to another galaxy Smacks me with a smile longer than a country mile Gets my heart a runnin' like a river running wild I can never get enough That's what I love about your love

It puts my hun in my honey Oh it puts the fun in my honey It's right on the money All of the above

It's what I love about your love Knocks me off my feet Takes me on a trip to another galaxy Smacks me with a smile longer than a country mile Gets my heart a runnin' like a river running wild I can never get enough That's what I love about your love That's what I love about your love That's what I love about your love

The moon is brighter than the morning sun That's what I love about your love The birds sing sweeter and the bees they buzz
